**GIATI UNVEILS TESSUTO – MODULAR SEATING
IMPECCABLY ENGINEERED, GENEROUSLY PROPORTIONED
AND SUSTAINABLE**

GIATI DESIGNS, INC., introduces a luxurious new modular seating collection, inspired by the old world elegance of the colonial style. The **Tessuto Collection** with its generous proportions, deep-cushioned comfort and impeccable engineering is designed to last a lifetime.

The **Tessuto Collection**, designed by company president, Mark Singer, boasts nine individual components that can be configured into multiple versatile seating solutions. Engineered for extraordinary strength and stability, each piece is constructed with a fully powder-coated aluminum sub-frame. The individually handcrafted bases are executed in hand-rubbed premium quality teak and the sides and backs feature a tightly woven proprietary wicker, integrated with UV stabilizers. This construction insures that the pieces can withstand a wide variety of climates and temperatures and are appropriate for any interior or exterior room requirement.

The **Tessuto Collection** includes a center unit, right and left unit, corner unit, lounge chair, coffee table, side table, ottoman and chaise lounge. All pieces offer clean, sophisticated styling, perfectly scaled and proportioned for unparalleled comfort. Meticulous attention has been paid to every detail.

GIATI DESIGNS, INC. manufacturer of quality crafted indoor/outdoor teak furniture, cast aluminum furniture, market umbrellas and imported European all-weather textiles is headquartered in Santa Barbara, California. **GIATI** products are available through a national network of designer showrooms and independent sales representatives.
