WALTERS WICKER BECOMES EXCLUSIVE US DISTRIBUTOR FOR MANUTTI A BELGIAN MANUFACTURER OF ELEGANT AND SOPHISTICATED INTERIOR/EXTERIOR FURNITURE

WALTERS WICKER, INC., manufacturer of high-end wicker, rattan, woven leather and resin furniture for the residential and contract markets, has become the exclusive United States distributor for **MANUTTI**, a Belgian company, whose elegant line of outdoor furniture is inspired by the clean, precise lines of contemporary architecture.

The **MANUTTI** collections encompass eight categories: Nautic, Wicker and Textiles, Wrought Iron, Teak, Umbrellas, Tables, Fabrics and Materials and a Care Line of products. Expertly engineered, utilizing the finest materials, **MANUTTI** products are manufactured with meticulous attention paid to every detail. Their impressive collections may be seen in the most prestigious hotels, clubs and resorts worldwide.

Featured from the **Manhattan Collection** in the Wicker and Textiles category is The Manhattan Lounger, the epitome of style and grace with minimal, sophisticated lines. The frame is powder-coated aluminum, covered with a high quality woven synthetic thermoplastic fiber that has the appearance of wicker. This material is fade resistant and water repellant. Perhaps the best news is that it is 100% toxin free and recyclable.

The lounger has four anti wear gliders with anodized aluminum protection caps for ease of movement. It is available in five colors, Tropical Desert, Tropical Forest, Tropical White, Tropical Brown and Tropical Black. Cushions are optional. The futuristic, sculptural and aerodynamic lines of the Manhattan Lounger create an atmosphere of refinement in any contemporary setting, indoors or out.
