SILAS SEANDEL CREATES BRONZEFORMS III WITH INNOVATIVE NEW MATERIALS AND A SPECTACULAR FINISH

Silas Seandel brings drama to the table with his new **Bronzeforms III**, a free form sculptural cocktail table in two parts, executed in stainless steel with an innovative brilliant mirror finish. Light and shadow seem to dance off this luxurious new take on its predecessor, Bronzeforms II. Both sections of the table are on castors, allowing for a multiplicity of configurations and use options. The table is featured at 50" x 30" x 16"H but is also available in any custom size. Dazzling **Bronzeforms III** with its futuristic appearance will be the focal point in any living room, den, home or corporate office.

Distinctive one-of-a-kind handmade pieces are the hallmark of **Silas Seandel's** furniture collection. **Silas Seandel** is known world wide for incorporating sculptural techniques into the design of furniture. His uniquely original custom pieces have enhanced many private residences, as well as high-end corporate environments, since 1963.

Executed in solid metals such as brass, bronze, steel, copper, etc., no two pieces are exactly alike. Furniture designs are constantly evolving and variations are unlimited. There are no enamels and no veneers. Nothing unnatural is utilized in the crafting process. All colors are the result of acids and heat treatments that **Silas** has developed himself. Designs can be modified according to the client's taste and specifications.

His gallery is located in the heart of the Chelsea art district. Clients are invited to view his collection of tables, wall sculptures, mirrors, fountains, etc. and at the same time, observe a real working sculpture studio. Convenient indoor free parking is a decided plus.

Silas Seandel is located at 551 West 22nd St, New York, NY 10011
