**SILAS SEANDEL INTRODUCES CAFÉ TABLE #1
THE FIRST OF A SERIES**

Silas Seandel introduces the imaginative new **Cafe Table #1**. Executed in cast bronze, the aesthetic sculptural base features a polychrome patina. The surface is comprised of inset glass, providing a see through quality which contrasts with the solid base. The first in a series of sculptured dining tables scaled for smaller spaces, it will command attention in a contemporary or eclectic dining room, living room, den or office environment. Each table is custom in size.

Distinctive one-of-a-kind handmade pieces are the hallmark of **Silas Seandel's** furniture collection. **Silas Seandel** is known world wide for incorporating sculptural techniques into the design of furniture. His uniquely original custom pieces have enhanced many private residences, as well as high-end corporate environments, since 1963.

Executed in solid metals such as brass, bronze, steel, copper, etc., no two pieces are exactly alike. Furniture designs are constantly evolving and variations are unlimited. There are no enamels and no veneers. Nothing unnatural is utilized in the crafting process. All colors are the result of acids and heat treatments that **Silas** has developed himself. Designs can be modified according to the client's taste and specifications.

The gallery is located in the heart of the Chelsea art district. Clients are invited to view his collection of handmade tables, wall sculptures, mirrors, fountains, etc. and at the same time, observe a real working sculpture studio. Convenient indoor free parking is a decided plus.

Silas Seandel is located at 551-3 West 22nd St, New York, NY 10011
