HIGHLIGHTS BRERA**

i4 MARIANI, U.S.A. Inc., manufacturers of the finest contemporary furniture by the preeminent Italian designers of our time, introduce **Brera**. This sophisticated collection, designed by renowned architect, Luca Scacchetti, includes sofas, benches and cocktail tables in a variety of sizes, a loveseat, lounge chair and a chaise. The collection offers clean, elegant lines, precision engineering and unparalleled comfort.

Featured from the collection are the **Brera Chaise** and **Bench**. **Brera** represents a precisely engineered, high tech product with the added luxury of hand finishing and exquisite detailing to fit any room requirement in either home or corporate settings. There are 21 beautiful leather selections, as well as more than one hundred fabric and color options available.

The load bearing frames on all **Brera** pieces consists of elm heartwood which is naturally seasoned for at least three years on the company premises. The seat webbing is comprised of elastic polypropylene and natural latex belts in two sizes of differing elasticity. The framework is upholstered in saddle leather. Cushions are padded with CFC-Free polyurethane foam of differing density and covered with polyester wadding. Back cushions on the sofas and chairs contain "tecnolat", a mixture of silicon-coated hollow staple polyester and natural latex foam cut into lozenge-shaped pieces. This technical innovation gives the cushions the feel of down with a memory effect that enables them to return to their original shape without plumping. **Brera** pieces rest on v-shaped steel supports, stove enameled with epoxy powder paint. A leather detail strip is applied to the feet to provide scratch protection for flooring surfaces.

Dimensions:

Bench: 85"L X 23.5"D X 24.75H

Chaise: 63"L X 35"D X 35"H
