**PARADISE FOUND
WITH THE ISLAND COLLECTION FROM WINDOW MODES**

Window Modes Ltd., the design industry's premier source for innovative window treatments, features **The Island Collection**, a subtle group of designs, capturing the essence of a tropical paradise.

Representing the centuries-old intricate craftsmanship of artisans at their finest, **The Island Collection** is comprised of exotic materials that are indigenous to the region. Wood pulp strands, natural grasses, tortoise shell slats, bamboo dowels, ramin reeds or custom materials have been carefully selected and woven to achieve the realistic ambience of island life.

The collection also employs the latest technological advances in hardware such as heavy-duty cord-lock and smooth, easy roll-up devices to ensure reliable and long lasting functionality. Motorization, a major asset for commercial and large area usage, is available in both roller and roman configurations, adding an exotic touch to commercial or residential spaces.

These artistic, yet practical, hand-woven Roman fold shades emit warmth and light, while maintaining privacy. All designs are available in custom colors and sizes.

Window Modes, Ltd. is headquartered in the D&D Building, 979 Third Avenue, New York City and is represented in major showrooms in design centers across the country.
